Subject: Microsoft Settlement

I would like to voice my concerns regarding the Microsoft and USDOJ settlement:

1. I believe the settlement is fair to all parties involved, possibly too harsh on Microsoft. I am OPPOSED to any additional restrictions or sanctions that may be added to the settlement.
2. I am extremely disappointed with the nine hold out states and I hope every Attorney General in those states lose their re-election bids.
3. The USDOJ should stop pressing companies like Microsoft that innovate and help our economy and go after companies who are true monopolies and damage our economy and consumers. Target No. 1 should be AOL Time Warner.
